

Sophia Lucarno, aka Sophia Borelli, aka Sophia Castillo from Palermo, Italy has spent a major part of her life either escaping from an unbearable situation, or planning an escape. As a small child, she escaped the taunts of other children by going deep within her own head. As a teenager, she dreamed of escaping from her father into the cloistered sanctuary of a nunnery. As a married woman living in America, she twice escaped from her husband, but each time found her way back into his life. Finally, as an older, more mature woman, she more carefully planned her third escape. However, even after planning so carefully, it developed that her greatest escape was one she had not planned at all.

Among Sophia's escape plans was her desire to escape from an unwanted pregnancy. The result of this stratagem provides a major turning point in the story.

SOPHIA'S EXIT STRATEGY also includes a fascinating and compassionate view of the New York City Mafia not usually seen in popular literature.

This book is a page turner with dramatic forward movement guaranteed to hold the attention of the reader.
